WOMAN'S SUFFRAGE UNIVERSAL SOON?

LEADERS FREELY PREDICT ACTUALITY BY MARCH 23.

IN THIRTY-FOUR STATES

Two More States Needed to Bring Vote to Women in the United States.

Washington, Mar. 11.—Suffrage for women may be an actuality by March 23, according to predictions by suffrage leaders today following the ratification of the suffrage amendment by the West Virginia legislature last night.

Charleston, W. Va. March 11.—The West Virginia legislature ratified the federal suffrage amendment late this afternoon. Final action on the amendment was taken by the senate in adopting the ratification resolution of the house of delegates, 15 to 14.

The vote of Senator Jesse A. Bloch of Wheeling, who made a hurried trip from California to Charleston to vote on the amendment, was effectual in breaking the deadlock between pro and anti suffragists forces. Senator A. R. Montgomery was not permitted to vote, his seat having been declared vacant.

The final vote on the Anthony amendment was taken at 6:15 o'clock in the senate, after one o fthe most dramatic sessions ever witnessed in either house of the legislature. For several hours suffrage leaders and their opponents fought in an effort to gain a definite advantage.

In Charleston tonight there was no evident intention of suffrage advocates celebrating their victory in making West Virginia the thirty fourth state to ratify the Susan B. Anthony amendment.

The first fight of the day in the senate was over the report of a part of the committee on privileges and elections on the question of Senator Montgomery's right to a seat. It was not made clear whether it was a majority or minority report, but it was not made by the chairman of the committee.

This report presented the letters of Senator Montgomery to Governor Cornwell and the governor's reply—the one tendering the senator's resignation, the other accepting—and other evidence. It recommended that Montgomerys seat, having been vacated by himself, be declared vacant by the senate.

FORMER NODAWAY RESIDENT DIES AT PROVO, UTAH.

Harry Stringer, the second son of Mr. and Mrs. Sam Stringer, died Mar. 8 at his home in Provo, Utah, aged 29 years, 6 months and 22 days, the cause of his death being brain fever. AUTOISTS ENROUTE FROM MICHIGAN STRIKE STORMS

F. B. Dinsmore goes with Party to Flint, to Drive Back new Cars to Maryville.

F. B. Dinsmore, in company with several others went to Flint, Mich., a few days ago to drive to Maryville a number of new Buick cars for George McMurray. In a letter written from Owosso, Mich., to his wife in this city, Mr. Dinsmore says: Arrived here at six o'clock tonight, traveled sixty one miles, thirty five miles through snow up to the running board of a car. There are sixteen cars of us coming to Missouri and guess there will be plenty of snow until we reach Chicago. Have been to Buffalo and Kalamazoo. They sure are some size. You can travel from here to Chicago and never get out of a town. We follow right around the edge of Lake Michigan. The car I am driving is a pippin. Out here you simply have to drive 35 or 50 miles per hour or else you will get run over. I think Flint is the nicest town I was ever in. They say they never have spring here until June 1. The country is level, not any hills. They are sure sending out new cars. They said there would be 300 this week sent to Missouri and Kansas. We have had a time to get any place to stay at night and one night we had to sleep on a cot in the dining room.

HOUSE VOTES FOR ARMY OF 316,280

REJECT PROPOSALS FOR SMALLER STANDIN GARMY IN U. S.

POWER TO PRESIDENT

Adopt Principle of Permitting Tactical Organization to be Prescribed by President Instead of Law.

Washington, Mar. 11.—Pleas of "little army" men to reduce military expenses were rejected yesterday by the house, which approved a peace time establishment of 299,000 enlisted men and 17,280 officers, after rejecting three proposals for a smaller force. The decision though not final, was reached by a three to one vote, leading supporters of the army reorganization bill to believe that it virtually settled the peace time program.

In addition to authorizing a regular army 100,000 stronger than provided by the national defense act of 1916, the house also accepted a lesson of the world war by adopting the principle of permitting the tactical organization of the army to be prescribed by the president instead of by law. Likewise it approved of making separate corps of the air service, the chemical warfare service and the finance department, but refused to divorce the transportation and the construction services from the quartermaster department.

Representative Dent of Alabama, ranking Democratic member of the military committee, opened the attack for a smaller army. His amendment to fix the maximum strength of 226,000 men and 14,200 officers was defeated, 79 to 25, and soon Representative Jones, Democrat of Texas, sought to fix the force at 205,000 men, but failed 55 to 22. Representative Harreld Republican of Oklahoma, renewed the attack, proposing to cut the army to 150,000 men. He was beaten, without a record vote.

After making a speedy get away in outlining the future military policy, the house engaged in a long debate over details, indicating that the bill would not be passed before the end of the week.

LEGION HEAD GIVES RED CROSS ARMY PAY

Lt. Col. Franklin D'Olier National Commander of American Legion Gives Away Salary.

Lieutenant Colonel Franklin D'Olier of Philadelphia, national commander of the American Legion, has given every dollar of his pay as an army officer to the American Red Cross. His last pay check from the war department for $2,511.19, covering nine months service, has just been received at National headquarters of the Red Cross at Washington. All previous pay checks had already been turned over to the society either in this country or in France, where Colonel D'Olier rendered service for the army that led to his selection of chief of the veterans national organization.

Acknowledging Colonel D'Olier's gift, Dr. Livingston Farrand, chairman of the central committee of the Red Cross, wrote:

"I find it difficult to express myself adequately in appreciation of the thought which has prompted this action on your part. It sets an example of high patriotism which crowns the personal service which you gave in the war."

Mr. Van Cleve Improving.

W. C. VanCleve, of the Monitor-Index finished his thirteenth sick day yesterday with a strong come back tendency. His fever has broken and the various congested organs seem to be slowly returning to normal. After seven days of total abstinence from food, Mr. VanCleve has been nourished, for the last two days, on a liquid diet—lemonade, orangeade, baked fruit and soda pop. He hopes soon to be promoted into the soup and broth division when he should gain more strength and speed.—Moberly Monitor-Index.

Scope of Seed Law.

One of the strong points of value in the new Missouri seed law is that it covers practically all the farm seeds other than garden seeds. Garden and truck crop seeds form a separate subject for legislation as generally recognized by the state and national agricultural authorities of the United States. This law includes in its requirements and regulations the following agricultural seeds:

"Canada blue grass, Kentucky blue grass, brome grass, fesenes, millets, tall meadow oat grass, orchard grass, redtop, Italian rye grass, kaffir corn and other grain and sweet sorghums, perennial rye grass, sudan grass, timothy, alfalfa, alsike clover, crimson clover, red clovers, sweet clover, white clover, Canada field peas, cowpeas, soybeans, vetches, and all other grasses and forage plants, buckwheat, flax, rape, barley, field corn, broom corn, oats, rye, wheat, and all other cereals."

The latest ruling under the new seed law is to the effect that "sugar or sweet corn" comes under the new law, and must be duly labeled, being included in the statute by "all other cereals." This phrase also includes "pop corn."

PERTINENT POLITICAL PRATTLE.

(By A. T. Edmonston.)

Phelps county Democrats in convention have indorsed Edward F. Goltra Missouri's member of the National Democratic nomination for re-election Fully twenty other Missouri county conventions have taken the same step and more will follow suit. Rural Missouri seems to be strong for the re-election of Goltra.

The Phelps county Democrats instructed their Joplin delegates to support Governor F. Gardner and Editor Burris M. Jenkins of the Kansas City Post for delegates at large from Missouri to the Frisco National Convention. Representative Frank H. Farris heads the Phelps county Joplin delegation. His candidacy for the Democratic nomination for Governor was unanimously indorsed amid wild enthusiasm.

Buford for Lieutenant Governor.

State Senator Carter M. Buford of Ellington, Reynolds county has filed for the Democratic nomination for Lieutenant Governor, and bids well to be the only candidate for that honor. It is his fourth term in the State senate, two years of the last term still remaining ahead for him. The political strength of this Democratic aspirant for second place on the next state ticket of the "only Reliable party" is indicated by the fact that three times hand running the "cape" of the Twenty fourth state senatorial district of Missouri failed to put up a candidate to combat for the honor with Senator Buford.

"State Safely Democratic"

State Senator Mark A. McGruder of Sedalia, who spent Monday and Tuesday in the Capitol city after a tour over the state, declared that not in years have the Democrats of Missouri been as full of party enthusiasm and the determination to give the party a landslide victory at the coming election as is the case now. Senator McGruder, who was the Democratic leador of the last senate, is contesting for the Democratic nomination for Attorney General against William H. Meredith of Poplar Bluff and Charles J. Wright of Springfield, two south Missouri lawyers. From Lancaster, Schuyler county, comes word that Earl E. Fogle who has been practicing law there since 1909, intends to seek the same nomination. He is the son of C. C. Fogle who several times represented Schuyler county in the legislature.

Judge Graves Is Honored.

Bates county Democrats in convention Monday indorsed Judge W. W. Graves of the Missouri supreme court for consideration by the Joplin convention for delegate at large to the Frisco national convention. The candidacy of Treasurer John M. Stone of Cass county for the Democratic nomination for State Treasurer was also indorsed. Madison county Democrats indorsed the "dry" lawyer, Charles M. Hay, of St. Louis, former Representative from Calloway county, for delegate at large from Missouri.

Springfield Democratic Rally.

Missouri Democracy is scheduled to inaugurate its 1920 campaign Friday, March 12, with a huge rally at Springfield, Mo. The event will be the first of a series of rallies and big get together meetings to be held every week or two throughout the state. Ben M. Neale chairman of the state Democratic committee, announced Saturday that arrangements for the big 1920 Democratic drive, which will lead to a record breaking victory next November, were being completed.

Fight Flu in Siberia.

Twelve American Red Cross nurses were sent to an army hospital near Vladivostock, Siberia, recently to assist during a flu epidemic in which 200 cases were reported among the soldiers of the 27th infantry. Army officers called upon the Red Cross when there was an indication the epidemic might reach serious proportions.

INVITED FIRST WIFE TO MAKE HOME WITH SECOND.

Indianapolis, Ind.—He was never married to the "first wife", who is suing him for divorce, Ivan Hummel declared when brought here from Florida to answer a grand jury indictment charging bigamy. The first Mrs. Hummel in her suit for divorce filed here, said that she and Hummel had two children. She charged that he became enamored of Miss Grace Huls, stenographer in Hummel's insurance office married the girl and then invited her to make her home with his new wife. "Why, I never was married to this first woman who sued for divorce," said Hummel. "I did marry Miss Huls.

Karo

In the blue can.

Jams, Jellies, Preserves are Too High—Blue Label Karo Solves the "Sweet" Problem at Less Cost. Important to Large Families

THE mother of a large family cannot help being worried over the extremely high prices of jams, jellies, preserves—and candy. In children especially Nature emphasizes her demand for sweets. We all need a good percentage of sweets each day.

This is the reason for the unusual present demand for *Blue Label* Karo—the Great American Sweet for every purpose.

INSTEAD of worrying about and paying high prices for store candy, make Karo Candy at home. It is easy to make, costs but little and its purity makes it best for children.

There is an every day use for *Blue Label* Karo. From breakfast—on pancakes or waffles—to dinner for cooking and baking.

NOTICE

Because you will find so many economical ways to use *Blue Label Karo* it will pay you to buy it *by the dozen cans*, as others are doing. Ask your grocer the price.

To Capture Melon Markets.

Jefferson City, Mo.—Southeast Missouri watermelon growers are already making plans for the capture of the August and September melon trade of the country.

If plans which have been set on foot mature, all melons from Missouri producing sections will be carefully stacked and grade this coming season and will move under a rigid inspection. It is felt by growers, generally, that this action is necessary for the preservation of the industry in Southeast Missouri.

Outside buyers have been inducing growers, especially during the past few years, to load green and other inferior melons with the result that considerable discredit has been brought home to even those growers who have ...tions. While all credit for the loading of green, necked, and small melons is not due to the efforts of buyers, it is known that growers have in many instances been induced to load melons which have been purchased in the patch, before these melons have become fully ripe. The accumulated effect of this practice, as well as of the dishonest loading, has been to throw the Southeast Missouri melons into bad repute.

Local shipping organizations are being formed at each loading point in the Southeast Missouri territory and a uniform system of grading, stacking, and inspection will be inaugurated. It is also quite probable that the output from all of these associations may be sold through a single distributing agency, growers generally favoring the appointment of a single sales manager who shall be directly responsible to the local associations.

The Cow in the Bible.

The cow and cattle should have and does have a place in the history of the world from the very earliest times, even from the high noon of the "fifth day" of the first "Adamic week" of the Scriptures. It is logical that the first chapter of Genesis, the first Book of the first portion of the Bible, should not have been finished without a direct and definite reference to cattle. We are not positively certain that the word was used with exclusive reference to the cow, but we leave that to you in quoting the 25th verse of the 1st chapter of Genesis, as follows:

"And God made the beast of the earth after his kind, and cattle after their kind, and every thing that creepeth upon the earth after his kind: and God saw that it was good."

There are ever so many scriptural references to cattle, but the first reference that we know of in which the word "cow" is used is in the 28th verse of the 23rd chapte rof Leviticus, the inspired Historian having thus early written into the record the name of the most useful of domestic animals.

U. S. Not a Melting Pot.

Boston.—Blending, not smelting is what will bring true Americanization according to Dr. Charles W. Eliot, president emeritus of Harvard.

"This country never was a melting pot. No country ever could be or ought to want to be," he maintained.

"The whole American idea is that all races, all churches, all ideas should be allowed to live their ways working in harmony to the common end of happiness and prosperity for all, he said in substance. There should be no attempt at absorption in the sense of physical fusion, but the aim should be amalgamation in support of American ideals of democracy and human rights.

CAKE PRESERVED 14 YEARS IN BRANDY CUT A TWEDDING.

St. Louis.—The report that a fourteen-year-old wedding cake was to be served at the nuptial breakfast of Miss Geraldine Isabelle Buchanan and Lieutenant Austin Smith Parker, didn't interfere with a full attendance of all invited guests at the Hotel Statler recently.

Sh-sh-s. The venerable cake was preserved in brandy.

The cake was made from a recipe for a Chinese fruit cake and "pickled" by Mr. and Mrs. Thomas J. Buchanan, parents of the bride, in their home at California, Mo., to be served at the first wedding in the family.

War romance added interest to the ceremony. Miss Buchanan, as a war worker, met Lieutenant Austin, then an artillery officer, at the Harvard canteen in New York. The groom's home is in Greenville, S. C., and he is a member of a Greenville-New York banking and brokerage firm.

ORIGINAL & GENUINE Fence
AMERICAN FENCE
MADE BY
AMERICAN STEEL & WIRE COMPANY
Weather Is the Real Test of a Woven Wire Fence
American Fence, the original and genuine, has stood the test of changing weather for 20 years. It yields to contraction and expansion of hot and cold weather. Perfect galvanizing and big heavy wires make it the most durable fence on earth. Full weight. Full size of wire. Full length of rolls.
Look for the sign: American Fence. Made by American Steel & Wire Company.

As the frost comes out of the ground, one's attention is naturally attracted to repairing that old fence, or perhaps better, rebuilding it with new material.

There has been no advance in the price of field fence and fence material in two years. About the only commodity that has not shown a very substantial advance during this period.

Look for the sign--

County Seat Road Dragging

By special arrangement with the County Court and the Highway Commission, I will be in my office all day every Saturday to attend to county seat road dragging matters. I earnestly request that everyone who is dragging, or wishes to drag on a county seat road, will call at the office and I will write you a new contract. We will pay you if you drag, whether you have a contract or not, but we wish to have a contract for every mile of county seat road in the county.

If anyone wishes to drag a mile of county seat road, and cannot come in, please drop me a card, designating the mile of road he wishes to drag, by section, township and range, and I will send him a contract to sign.

I also request that anyone who travels one of the county seat roads will call at my office when in town on Saturday and inform me of any badly needed improvements, and I will take the matter up with the Highway Commission. I make this request owing to the fact that we have some money on hand which we wish to disburse immediately.

I earnestly solicit the co-operation of every citizen of the county, as the Highway Commission gets no compensation whatever.
